

How to Use a GPS For Fun and Adventure

A Free Workshop

This workshop will provide hands-on experience in the theory and practical use of Global Positioning System (GPS) devices for exploring the out-of-doors. You will learn about basic compass navigation, GPS purchase criteria, and then practice using a GPS in the field to navigate a course to discover your final "reward." Pre-registration required.

10 AM — 4 PM

Saturday, June 10, 2006
