

Sierra Club Adventures: Since 1901

A Free Presentation

Join the Sierra Club for a photo presentation and talk by Bob Pauls, Chair of the Sierra Club's Outings Program for both Illinois and the Midwest region.

He will describe through photos and story how the Club's famous outings program came into being, its place in today's complex recreation industry, how leaders are trained and supported to deliver 18,000+ outings/year and the opportunities for any person to become involved in group, chapter, national, international and inner-city outings.
