

# The Tree Doctor Makes House Calls

## A Free Presentation

Mike Plumer, a forestry and wildlife specialist with the University of Illinois Extension Service, will give a slide show on native Southern Illinois trees and ornamentals for the Sierra Club meeting in February. He will also show us how to recognize common maladies of trees. In addition, he will answer specific concerns about your trees. Mike's official title is Natural Resource Management Educator. He has degrees in Wildlife Management and Agronomy and gives adult programs and acts as a consultant on wildlife management, forestry plans, tree diseases, watershed management, and water quality.

**7:30 PM**

**Thursday, February 9, 2006  
Carbondale Township Office  
217 East Main Street  
Carbondale, Illinois**
